WEBForms® version 4.9 – Improvements to toolbar

Since the launch of WEBForms® 4.9, we've had some excellent feedback. Members are very pleased with the new format and compatibility for MAC and mobile devices. However, we've also heard that some members miss the old WEBForms® toolbar. We've listened. We brought in an expert on design and will soon launch a new, simpler toolbar that harkens back to the original WEBForms® toolbar.

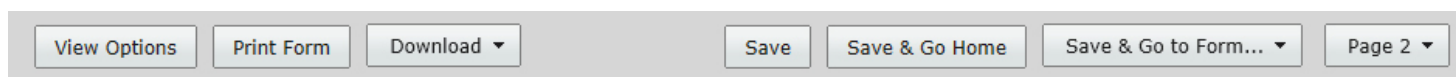

This is the current HTML5 toolbar for BC:

Here is the toolbar we used with Adobe Reader:

Here's a preview of the new and improved WEBForms® HTML5 Toolbar:

This new toolbar is easier to navigate, requires less effort, and has a less cluttered look. It's simply better. We're aiming to update WEBForms® to version 4.9.1 on December 4, 2012 with this new toolbar.
